NET NAMING

Internal positions are named for what they join

Example: Offsets inside of that HV pin e.g. HVDC_V1H

Position: M endpoint of a safety pin e.g. PELA_M

Position: M endpoint of a safety pin e.g. PELA_M

Position: M endpoint of a safety pin e.g. PELA_M

Position: M endpoint of a safety pin e.g. PELA_M

Position: M endpoint of a safety pin e.g. PELA_M

Position: M endpoint of a safety pin e.g. PELA_M

Position: M endpoint of a safety pin e.g. PELA_M

Position: M endpoint of a safety pin e.g. PELA_M

Position: M endpoint of a safety pin e.g. PELA_M

Position: M endpoint of a safety pin e.g. PELA_M

Position: M endpoint of a safety pin e.g. PELA_M

Position: M endpoint of a safety pin e.g. PELA_M

Position: M endpoint of a safety pin e.g. PELA_M

Position: M endpoint of a safety pin e.g. PELA_M

ASL-D SAFETY CONCEPT + DC-LINK DISCHARGE VERIFICATION

with state = 1 (phase open) (VDC above overvoltage discharge vs. EDC 100V 100V)

1. Switching S1/S2/S3 (VDC 100V) (over temp pin)

2. F100V 100V (switching) + overvoltage + F100V 100V

3. F100V 100V (switching) + overvoltage + F100V 100V

4. F100V 100V (switching) + overvoltage + F100V 100V

5. F100V 100V (switching) + overvoltage + F100V 100V

6. F100V 100V (switching) + overvoltage + F100V 100V

7. F100V 100V (switching) + overvoltage + F100V 100V

8. F100V 100V (switching) + overvoltage + F100V 100V

9. F100V 100V (switching) + overvoltage + F100V 100V

10. F100V 100V (switching) + overvoltage + F100V 100V

11. F100V 100V (switching) + overvoltage + F100V 100V

12. F100V 100V (switching) + overvoltage + F100V 100V

13. F100V 100V (switching) + overvoltage + F100V 100V

14. F100V 100V (switching) + overvoltage + F100V 100V

15. F100V 100V (switching) + overvoltage + F100V 100V

16. F100V 100V (switching) + overvoltage + F100V 100V

17. F100V 100V (switching) + overvoltage + F100V 100V

18. F100V 100V (switching) + overvoltage + F100V 100V

19. F100V 100V (switching) + overvoltage + F100V 100V

20. F100V 100V (switching) + overvoltage + F100V 100V

21. F100V 100V (switching) + overvoltage + F100V 100V

22. F100V 100V (switching) + overvoltage + F100V 100V
